

Jonathan Dreksler

Kenmore, WA | (206) 659-9755 | jondreksler369@gmail.com

PROFESSIONAL SUMMARY

Project manager and technical consultant with a Computer Science degree and experience spanning software rollouts, client-facing operations, and workflow automation. Background in project management, system implementations, and customer success across multiple industries.

SKILLS

Project Management | Software Implementation | Client Onboarding | AI Workflow Automation (OpenAI, Claude, Ollama) | API Integration | CRM Platforms | WordPress | Data Analysis | Cross-Functional Coordination | Process Improvement

EXPERIENCE

Contract Technical Consultant | Small Business Clients (E-Commerce, Professional Services, Healthcare)

Remote / USA | Jan 2026 - Present

- Designed and deployed responsive websites integrated with business systems, managing full lifecycle from requirements gathering through testing and deployment
- Built AI-assisted data workflows for bookkeeping, transaction reconciliation, and financial reporting using OpenAI and Claude APIs, reducing manual processing time and improving accuracy
- Engineered database cleanup and validation pipelines, improving data integrity and system reliability for client records
- Integrated AI tools (OpenAI, Claude, Hermes Agent, local Ollama models) and standardized workflows across platforms, reducing repetitive tasks and administrative overhead through process automation
- Maintained client communication, gathered requirements, and adjusted priorities to keep work aligned with budgets, timelines, and business objectives

Project Manager | Vertical Visual Solutions

Mountlake Terrace, WA | Aug 2024 - Jun 2025

- Coordinated multi-stakeholder installation projects, integrating scheduling systems and vendor coordination workflows to meet build deadlines
- Managed budgets and cost tracking systems, implementing reconciliations for accuracy and compliance across all project phases
- Optimized project workflows through systematic process improvements, helping reduce delays and subcontractor friction
- Led cross-functional communication between clients, trade partners, and internal teams, ensuring alignment on milestones and deliverables
- Conducted quality inspections and addressed issues promptly, helping maintain contractual standards across concurrent projects

Project Manager | Commode Cappers

Los Angeles, CA | Mar 2021 - Aug 2024

- Led company-wide software rollout achieving full team adoption through structured training, change management, and hands-on user support
- Built and maintained eCommerce platform on WordPress, integrating product listings, payment systems, and order fulfillment workflows
- Analyzed production data to identify bottlenecks and implemented process changes that helped compress timelines during peak demand
- Directed vendor coordination, inventory management, and production scheduling that contributed to increased overall output
- Created data-driven stakeholder presentations, analyzing project metrics and visualizing key insights for decision-making

Project Manager | Supertutor Media, Inc.

Los Angeles, CA | Apr 2019 - Feb 2021

- Integrated Excel-based tracking systems with automated email campaigns, enhancing data accuracy and response times across operations
- Self-studied tax code to resolve complex payroll compliance issues, achieving full regulatory compliance and avoiding penalties
- Detected and reported fraudulent transactions through systematic financial monitoring, helping prevent losses
- Maintained website content and coordinated targeted email marketing campaigns, supporting user engagement and retention efforts

Office Manager / Customer Service Representative | Various Positions, California

May 2007 - Apr 2019

- Managed customer needs and coordinated staff priorities across retail and service environments, consistently working toward company sales goals
- Trained and onboarded new employees with structured orientation programs, helping accelerate team readiness and productivity

EDUCATION

Bachelor of Science in Computer Science | University of Maryland Global Campus | December 2022
