

Jonathan Dreksler

Kenmore, WA | (310) 497-8153 | jondreksler369@gmail.com

PROFESSIONAL SUMMARY

Technical implementation and customer success professional with 4+ years leading software rollouts, workflow redesign, technical consulting, and cross-functional projects, supported by 12+ years in customer-facing operations. BS in Computer Science with hands-on experience in AI workflow automation, data pipelines, websites, training, and process documentation. Skilled at translating business requirements into usable systems, coordinating stakeholders, and guiding teams from discovery through launch and adoption.

SKILLS

Software Implementation | Client Onboarding | Project Delivery | Process Redesign | AI Workflow Automation (OpenAI, Claude, Zapier, Ollama) | API Integration | Data Analysis | CRM Platforms | WordPress | Training and Documentation | Cross-Functional Coordination

EXPERIENCE

Independent Technical Consultant, Client Solutions | Sazzco

Remote / USA | Jan 2026 - Present

- Design and deploy responsive websites integrated with business systems, managing the full lifecycle from requirements gathering through testing and deployment
- Build AI-assisted data workflows for bookkeeping, transaction reconciliation, and financial reporting using OpenAI and Claude APIs, reducing manual processing time and improving accuracy
- Engineer database cleanup and validation pipelines, improving data integrity and system reliability for client records
- Integrate AI tools (OpenAI, Claude, Hermes Agent, local Ollama models) and standardize workflows across platforms, reducing repetitive tasks and administrative overhead
- Maintain client communication, gather requirements, and adjust priorities to keep work aligned with budgets, timelines, and business objectives

Project Manager | Vertical Visual Solutions

Mountlake Terrace, WA | Aug 2024 - Jun 2025

- Coordinated multi-stakeholder installation projects, integrating scheduling systems and vendor coordination workflows to meet build deadlines
- Managed budgets and cost tracking systems, implementing reconciliations for accuracy and compliance across all project phases

- Optimized project workflows through systematic process improvements, helping reduce delays and subcontractor friction
- Led cross-functional communication between clients, trade partners, and internal teams, ensuring alignment on milestones and deliverables
- Conducted quality inspections and addressed issues promptly, helping maintain contractual standards across concurrent projects

Project Manager | Commode Cappers

Los Angeles, CA | Mar 2021 - Aug 2024

- Led a company-wide software rollout for a Los Angeles clothing manufacturer, translating operational workflows into system configuration and team training and achieving 100% team adoption
- Redesigned production processes and coordinated vendor and inventory dependencies, increasing overall output by 15% and compressing production timelines by one week
- Built and maintained the company eCommerce platform on WordPress, integrating product listings, payment systems, and order fulfillment workflows
- Created data-driven stakeholder presentations, analyzing project metrics and visualizing key insights for decision-making

Office Manager | Supertutor Media, Inc.

Los Angeles, CA | Apr 2019 - Feb 2021

- Built Excel and email automations and fraud-detection controls that strengthened payroll compliance and prevented thousands of dollars in losses
- Maintained website content and coordinated targeted email marketing campaigns, supporting user engagement and retention efforts
- Self-studied tax code to resolve complex compliance issues, achieving full regulatory compliance and avoiding penalties

Office Manager / Customer Service Representative | Various Positions, California

May 2007 - Apr 2019

- Managed customer needs and coordinated staff priorities across retail and service environments, consistently working toward company sales goals
- Trained and onboarded new employees with structured orientation programs, helping accelerate team readiness and productivity

EDUCATION

Bachelor of Science in Computer Science | University of Maryland Global Campus |
December 2022
